

II. SPECIFICATION AMENDMENTS

Please insert the following on page 1, between lines 6 and 7:

1. Field of the Invention

Please insert the following on page 1, between lines 8 and 9:

2. Brief Description of Related Developments

Please amend page 2, line 18 as follows:

~~BRIEF DESCRIPTION OF THE INVENTION~~ SUMMARY OF THE INVENTION

Please amend the Abstract on page 25 as follows:

ABSTRACT OF THE DISCLOSURE

A method of connecting an access point to other network elements in a wireless telecommunication system ~~comprising~~having at least one access point offering wireless connections, and at least one fixed network part. ~~Data is stored,~~ includes storing data on an IC card for connecting at least one access point to a functional connection with the fixed network part. The IC card is connected to a functional connection with the access point when the access point is to be connected to the fixed network part. Necessary resources of the fixed network part are connected to a functional connection with the access point on the basis of said stored data. As a precondition for the connection, the IC card's rights to use the resources of the fixed network part can be checked in the fixed network part.
